LETTER FROM THE PRESIDENT

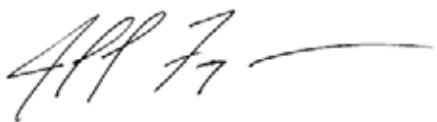

Greetings! The Umpqua team works tirelessly in hopes of fulfilling our vision “To Give People Their Best Day on the Water”. So much of what the team does is behind the scenes and not highly visible outside our walls; that’s why the introduction of a new catalog is such an exciting time of the year. Within these pages, you will find one of the visible results of the team’s day in and day out efforts. We are thrilled to share with you our 2024 catalog.

You will notice a strong offering of new products for this coming year. We have a fabulous new fly offering that will undoubtedly reflect at your cash register. And if you know any flats anglers, you’ve probably already heard about our recently introduced Deceiver **Pink** Fluorocarbon. Streamside accessories continue to be a staple for every successful fly-fishing retailer and as a result, we have completely revamped our UPG fly box offering. This is an all-inclusive premium box line, with the entire offering available in both silicone and foam. We also took a close look at streamside tools, and have no doubt our new River Grip Precision Series will spice up your streamside wall as well as your bottom-line. We are confident that our new additions this year will help to continue to drive revenue in your business.

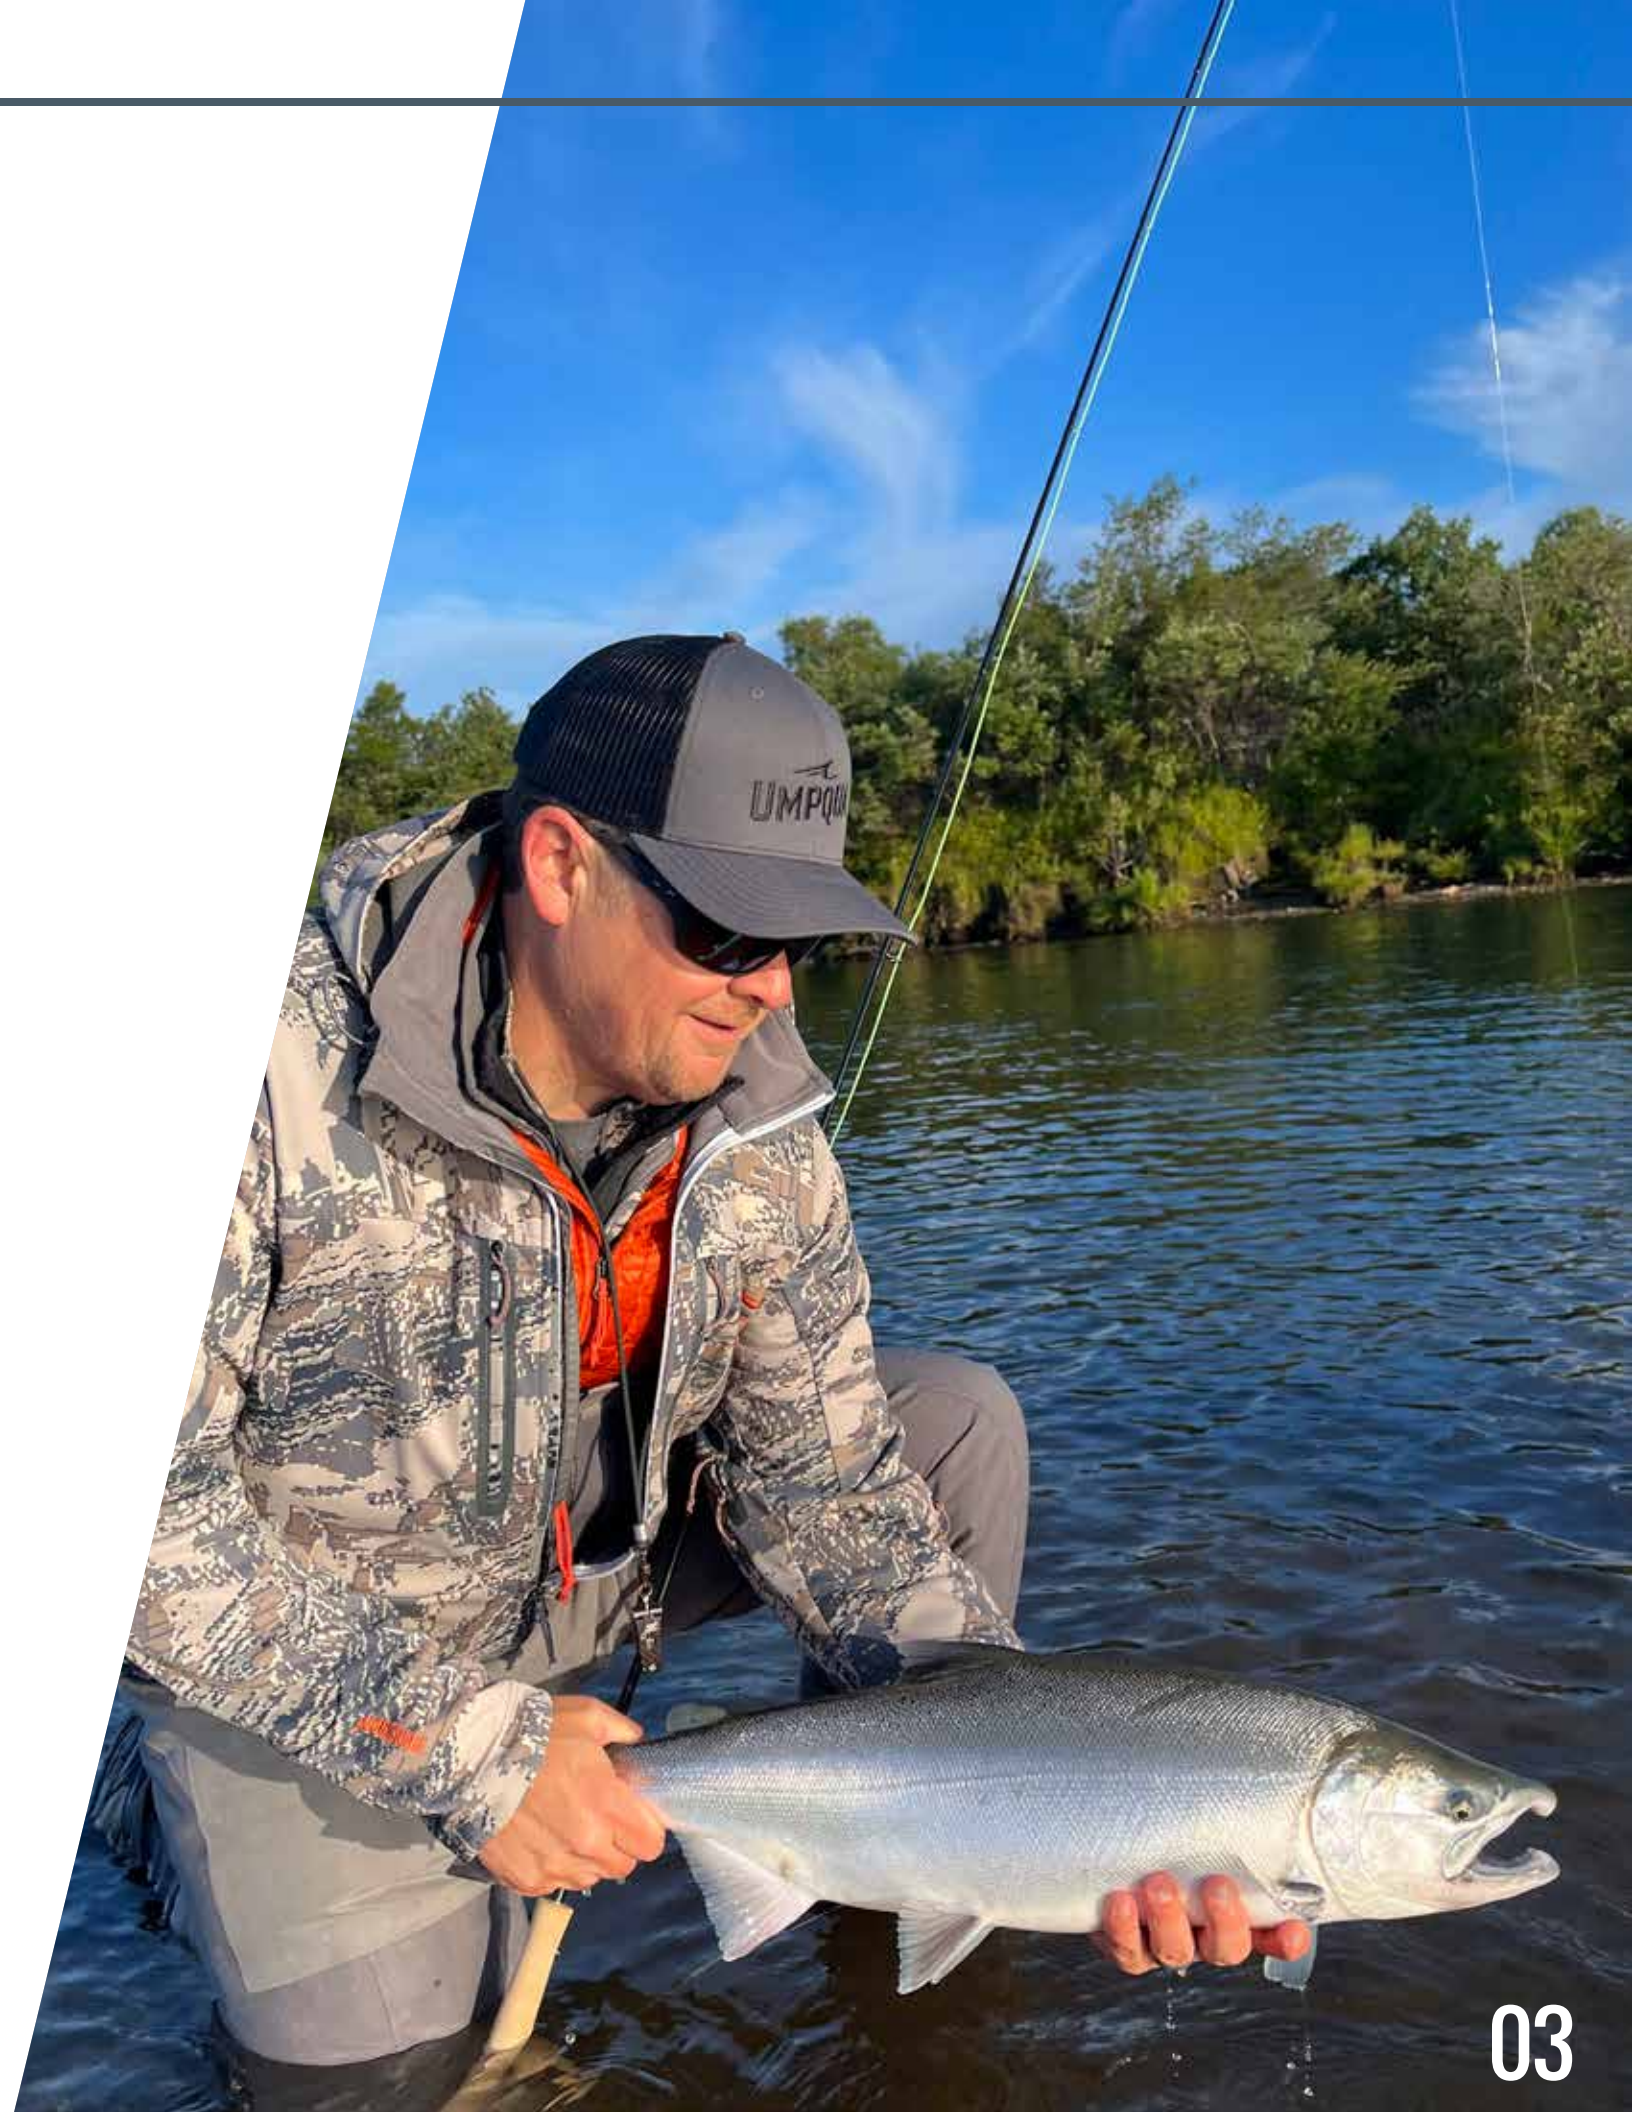

As we look ahead, we are excited about the coming year, for both Umpqua and our industry. Most of the challenges brought on by COVID are in the rearview mirror and although our nation may face some economic speedbumps, our industry is healthy and vibrant.

Thank you for your continued support of Umpqua. We realize that no matter how many new flies or how many cool new products we introduce, none of it would matter without your support. Thank You for your business and Thank You for choosing Umpqua!

Best Regards,

A handwritten signature in black ink, appearing to read "Jeff Fryhover", with a long horizontal flourish extending to the right.

Jeff Fryhover

A person wearing a plaid shirt, shorts, and a hat is standing on a large rock in a river, fishing. The river is filled with large rocks and the water is a deep, dark green color. The person is holding a fishing rod and a line that extends into the water. The background shows more rocks and the continuation of the river.

OUR VISION

TO GIVE PEOPLE THEIR BEST DAY ON THE WATER.

OUR MISSION

TO MAKE ALL ANGLERS BETTER THROUGH PASSION, EDUCATION,
AND RELENTLESS INNOVATION

PASSION

WE SHARE OUR LOVE AND APPRECIATION OF THE OUTDOORS

WE BELIEVE IN WORKING HARD AND PLAYING HARD AND THAT LIFE IS BETTER OFF A DIRT ROAD. WE BELIEVE IN AUTHENTIC EFFORTS TO PRESERVE THE WILD PLACES THAT MAKE US FEEL ALIVE.

INNOVATION

BREAK IT...MAKE IT BETTER

WE BELIEVE IF IT AIN'T BROKE, WE SHOULD BREAK IT...AND MAKE IT BETTER. WE BELIEVE IN CUTTING-EDGE PRODUCTS, SYSTEMS, SERVICES AND BUSINESS SOLUTIONS FOR OUR CUSTOMERS AND NEVER UNDERESTIMATING OUR COMPETITION.

HONOR

ONE WAY TO DO THINGS, THE RIGHT WAY! DO THE RIGHT THING

WE BELIEVE IN THE HIGHEST LEVEL OF INTEGRITY WHICH PEERS, CUSTOMERS AND EVEN COMPETITORS CANNOT DISPUTE NOR QUESTION. WE BELIEVE IN EXTREME OWNERSHIP...BEING TRUE TO OUR WORD AND OWNING OUR ACTIONS AND ATTACKING TOUGH SITUATIONS HEAD ON, WITH CANDOR AND KINDNESS.

FAMILY

ABOVE ALL, WE'RE A TEAM

WE BELIEVE IN PLAYING FOR EACH OTHER. THAT MEANS WE SHOW UP FOR EACH OTHER, ACT WITH EMPATHY AND HUMILITY. BRING OUR AUTHENTIC SELVES TO WORK EVERY DAY - WE ARE GROWING THIS COMPANY NOT FOR OUR OWN PERSONAL GAIN BUT FOR EACH OTHER'S. WE ARE COMMITTED TO THE GROWTH AND HAPPINESS FOR OUR FAMILY OF EMPLOYEES, DEALERS, FLY DESIGNERS, GUIDES, AND ANGLERS. WE BELIEVE IN BRINGING JOY TO OUR FAMILY EVERY DAY. LAUGH, BE GRATEFUL, POSITIVE, AND HOSPITABLE.

CUSTOMER

WITHOUT THE CUSTOMER, WE DON'T EXIST...ACT LIKE IT, EVERYDAY

WE BELIEVE THAT OUR CUSTOMERS DESERVE THE VERY BEST, AND IT'S OUR JOB TO GIVE IT TO THEM. WHEN A CUSTOMER HAS A PROBLEM, IT'S A BIG DEAL...LISTEN AND FIX IT. OUR BUSINESS IS COMPLEX AND WE BELIEVE IN GOING THE EXTRA MILE TO MAKE SURE OUR CUSTOMER DOESN'T FIND OUT.

TERMS OF SALE

PRICE: All prices in this catalog are base unless otherwise noted. Umpqua Feather Merchants must approve any variation from these prices in writing. All prices are subject to change without notice.

TERMS: Pre-pay until credit has been approved. All purchasers are subject to a credit approval. If the Company determines a purchaser's credit and/or payment history is insufficient, terms will be net cash in advance or COD. Customers cannot exceed their account credit limit.

Pre-authorization of credit cards will be obtained when order is placed on all Prepay orders. This pre-authorization may place a hold on funds in the account depending on your banks requirements.

PAST DUE ACCOUNTS: A service charge of 2.0% per month on all unpaid balances will be charged on all past due accounts. These charges will not exceed 24% annually. Discounts can only be taken if an account has no past due invoices or unpaid finance charges.

Accounts over 90 days past due are subject to being sent to Collections. Purchaser will be responsible for all related collection costs including attorney fees and court costs on all invoices not paid within terms.

TERMS ARE SUBJECT TO CHANGE WITHOUT NOTICE.

DISCOUNTS: Discounts can only be taken on finished product costs. Freight charges, pallets, document fees, etc. are not discountable items. Discounts can only be taken if an account has no past due invoices or unpaid finance charges.

ORDERS: The minimum order required to open an account is \$750. All products are sold by units or case lots as described in the catalog. All orders are subject to acceptance by Umpqua Feather Merchants. **Upon such acceptance, without further notice to the customer, the order becomes a valid contract governed by the laws of the state of Colorado.**

All early order back orders will be canceled 120 days after their initial ship date unless a cancel date had been specified by the customer.

ORDERS ARE NOT GUARANTEED: Umpqua Feather Merchants will make every effort to deliver orders on time and as complete as possible, but does not guarantee this. Customer satisfaction is our mission, but no employee or representative of Umpqua Feather Merchants has any authority to guarantee shipments. Customers release Umpqua Feather Merchants from any liability in connection with an order not being delivered on time or being incomplete.

CALIFORNIA PROPOSITION 65: Umpqua Feather Merchants has implemented measures to comply with the California Safe Drinking Water and Toxic Enforcement Act of 1986 and associated regulations (collectively, "Proposition 65"), which require warnings with certain products sold to California consumers. Dealer shall indemnify, defend, and hold harmless Umpqua Feather Merchants, LLC for any harm or loss (including financial penalty) resulting from Dealer's non-compliance with Proposition 65 or Dealer's failure to take the actions laid out in Umpqua Feather Merchants notices to Dealer regarding in-store and online Proposition 65 warnings.

TERMS & CONDITIONS

SIGNATURE TYERS

In the 1970's, Dennis Black, Umpqua's founder, put in motion an idea that would grow into the world's largest fly company. Dennis, a well-respected fly tyer and fishermen developed friendships with many of the sport's greats, including: Randall Kaufmann, Mike Lawson, Andre Puyans, E.H. Polly Rosborough, Larry Dahlberg and Gary LaFontaine. Through these friendships, Dennis curated the most sought after fly designs and started, what is now, Umpqua's Signature Designer program.

The majority of Umpqua's fly assortment is designed through these Signature Tyers. Hundreds of fly fishermen yearly send Umpqua their designs in hopes to become part of the Signature Tyer family. Brent Bauer, a Signature Tyer himself, oversees the whole Signature program, and is dedicated to making the program successful. Umpqua's fly selection committee meets quarterly to decide which flies will be included in the catalog. After the flies have been selected, our tyers are put under contract to receive royalties for their design. Each fly is produced to the specificity and is guided by the Signature Tyer. The relationship with the the Tyers is the backbone of the Umpqua business and speaks to the nature of the Umpqua name. With over 200 Signature Tyers currently in the program, Umpqua aims to spur on fly innovation and creativity by continuing this tradition in the years to come.

Umpqua flies carry a rich history of tradition, quality and innovation—designed by fly fishermen for fly fishermen. Fly fishing is built on the fly; that seemingly small piece of gear is what connects man to prey. Without the fly, all fish stories would be the tallest of tales.

If you think you have what it takes to join the most prominent and prestigious Signature Fly Designer Program in the industry, we'd love to see what you've got.

To find out how, contact us at umpqua@umpqua.com or call us at 800.322.3218.

CORN-FED SPRUCE MOTH

TIED BY SIGNATURE TYER
LANCE EGAN

MENTION THE TERM "TERRESTRIALS", AND ANGLERS ENVISION HOPPERS, ANTS, BEETLES, CRICKETS, AND MAYBE EVEN CICADAS, BUT RARELY DO WE ANGLERS THINK ABOUT MOTHS. LATE SUMMER TO EARLY FALL, THE SPRUCE MOTH HATCH CAN BE HAPPENING ANYWHERE THERE ARE FIR OR SPRUCE TREES LINING ROCKY MOUNTAIN RIVERS & LAKES. THE CORN-FED SPRUCE MOTH IS AN IMITATIVE PATTERN THAT USES THE NATURAL FLOATATION AND IRRESISTIBLE NATURE OF CDC TO ENTICE TROUT. IF YOU'RE HEADING TO THE HIGH COUNTRY IN LATE SUMMER DON'T BE CAUGHT WITHOUT A FEW CORN-FED SPRUCE MOTHS.

MR. JONES

TIED BY SIGNATURE TYER
CHARLIE CRAVEN

THE MR. JONES IS THE RESULT OF YEARS OF TRYING TO COME UP WITH A PATTERN TO MATCH NOT ONLY THE PROFILE OF A LARGE, SKATING ADULT CRANEFLY, BUT TO DEVELOP A FLY THAT WOULD SKATE AND DANCE THE WAY THE NATURALS DO. LIKE SO MANY GOOD FLIES, THIS ONE COMBINES PARTS FROM A COUPLE PREVIOUS PATTERNS, NOTABLY MY LUCKY B AND THE INFAMOUS SCREAMING BANSHEE. THE RESULT IS A FLY THAT NOT ONLY LOOKS GOOD, BUT FISHES EVEN BETTER. WITH A UNIQUELY FORMED EXTENDED BODY THAT WILL FOLD UP WHEN A FISH EATS IT AND A FORWARD FACING MOOSE HAIR WING, THE MR. JONES IS HONESTLY ONE OF THE MOST FUN FLIES I HAVE EVER FISHED. SKATED DOWN AND ACROSS OR EVEN STRIPPED LIKE A STREAMER ON TOP JUST STRAIGHT OFF THE BANK, THE VISUAL FOLLOWS AND ATTACKS THIS FLY PROMPTS ARE SECOND TO NONE.

PABLO'S CRIPPLE

TIED BY SIGNATURE TYER
PAUL RUSSELL

PABLO'S CRIPPLE IS A PERFECT MAYFLY IMITATION FOR PICKY FISH IN TECHNICAL TAILWATERS AND FREESTONES ALIKE. THE FLY WAS DEVELOPED ON THE YAMPA RIVER IN STEAMBOAT, CO. WHETHER THE FISH ARE KEYED IN ON A TOUGH SPINNER FALL OR ONLY EATING CRIPPLED EMERGERS, PABLO'S CRIPPLE HAS YOU COVERED FOR ANY HATCH OF TRICOS, BWO'S, AND PMD'S. THE TRICO COLOR ALSO DOUBLES AS AN EXCELLENT MIDGE DRY IN THE SMALLER SIZES. YOU CAN FISH THIS PATTERN DRY, IN THE SURFACE FILM, OR FISHED DEEP AND FIND SUCCESS ON YOUR LOCAL WATERS.

STEALTH LINK

TIED BY SIGNATURE TYER
MIKE MERCER

A COUPLE OF YEARS AGO, FISHING A PALE MORNING DUN EMERGENCE ON A FAVORITE STRETCH OF NORTHERN CALIFORNIA'S HAT CREEK, I WAS SHOCKED TO EXPERIENCE THE HYPER-SELECTIVE RAINBOWS REFUSING MY MISSING LINK. EVERY STEADY RISER WOULD TAKE A CLOSE LOOK, BUT ONLY ONE IN FIVE WOULD TAKE IT, INSTEAD OF THE 80-90% SUCCESS RATE I'M USED TO. IT SEEMED THAT THE FISH HAD ENOUGH NATURALS TO CHOOSE FROM THAT MANY WERE KEYING IN ON EMERGERS STILL ATTACHED TO THEIR SHUCKS, INSECTS THAT WERE TRULY HELPLESS FOR SEVERAL SECONDS AS THEY DRIFTED ON THE SURFACE. NOT NEEDING TO REINVENT THE WHEEL, I SIMPLY ADDED A TWO-PART SOFT SHUCK TO MY MISSING LINK, AND SUBSTITUTED A QUILL BODY IN PLACE OF THEIR ORIGINAL'S THREAD AND FLASHABOU ABDOMEN. THOSE HAT CREEK FISH NEVER KNEW WHAT HIT 'EM!

BIG FAT AUNT

TIED BY SIGNATURE TYER
CHRIS JOHNSON

NO AVID ALPINE FLY ANGLER WILL REFUTE THE EFFECTIVENESS OF A CARPENTER ANT IMITATION IN THE SUMMER. PRESENTING THIS FLY TO CUTTHROAT IN THE SMALLEST OF STREAMS, AS WELL AS HIGH MOUNTAIN LAKES, CAN BE ABSOLUTELY DEADLY. HOWEVER, I HAVE FOOLED MANY LARGER, MORE DISCERNING TROUT ON THE PATTERN AS WELL. THE FLY'S DOUBLE-STACKED FOAM ABDOMEN HELPS IT REMAIN HIGH AND DRY THROUGHOUT THE DAY. THE HACKLE AND LEGS TRULY PERFECT THE PROFILE MAKING IT AN ACCURATE REPRESENTATION OF THE GENUINE ARTICLE. GIVE THE BIG FAT AUNT A TRY AND IT WILL FIND A PERMANENT PLACE IN YOUR FLY SELECTION AS WELL!

CHUBBY CUBBY

TIED BY SIGNATURE TYER
KEVAN DAVIDSON

THE THREE-SECTION CUPBOARD ANT HAS ALWAYS BEEN MY FAVORITE CONFIGURATION OF THE CUPBOARD ANT, WHICH WAS BORN OUT OF A TOP-OF-MIND NEED TO CREATE NEW FLY PATTERNS TO IMITATE CARPENTER ANTS IN ROCKY MOUNTAIN NATIONAL PARK. MARRYING THE CHUBBY STYLE WING TO THE SHINY SILHOUETTE OF THE CUPBOARD ANT WAS A NO BRAINER, WHICH IS WHY I CALLED THIS CUPBOARD ANT VARIATION THE CHUBBY CUBBY. I HAVE FISHED THE CHUBBY CUBBY FOR MANY YEARS WITH GREAT SUCCESS IN LAKES AND RIVERS AS A STIMULATOR PATTERN BY ITSELF OR WITH A TAILING DRY FLY OR SMALL DROPPER.

FANCY PANTS HOPPER TIED BY SIGNATURE TYER ERIC PARAMORE

THE INSPIRATION FOR THE FANCY PANTS HOPPER CAME FROM YEARS OF OBSERVATION OF ACTUAL MONTANA GRASSHOPPERS. THE MAIN DIFFERENCE BETWEEN THIS PATTERN AND OTHER HOPPER PATTERNS IS THAT THE THORAX, WING AND LEGS ARE ONE PIECE OF FOAM CREATING A SIMPLE, SUPER REALISTIC PROFILE, SOMETHING I HAVE BEEN TRYING TO ACHIEVE SINCE THE CREATION OF MY ORIGINAL THUNDER THIGHS HOPPER. THIS HOPPER LOOKS LIKE THE REAL THING FROM ALL ANGLES AND GETS FEWER LATE SEASON REFUSALS THAN OTHER BULKY PATTERNS. TIED ON THE BEEFY TIEMCO 5262 HOOK, THIS FLY LANDS UPRIGHT AND HOLDS TIGHT.

SEED BEETLE TIED BY SIGNATURE TYER BRANDON FELLER

THE SEED BEETLE WAS CREATED OUT OF NECESSITY. THERE WASN'T A PATTERN IN THE FLY SHOPS THAT ACCURATELY IMITATED THE INSECTS I WAS SEEING ON THE RIVER. WESTERN CONIFER SEED BUGS HAVE BECOME AN IMPORTANT TERRESTRIAL INSECT ON MY HOME RIVER THE GREEN, AS WELL AS MANY OF THE RIVERS I FISH IN THE WESTERN UNITED STATES, AND FISH LOVE THEM. PERHAPS IT IS BECAUSE OF THE PHEROMONE THESE INSECTS CONTAIN. THE PATTERN WAS DEVELOPED TO SIT LOW IN THE SURFACE FILM, BE HIGHLY VISIBLE, AND BUOYANT. IT ALSO DOES A GREAT JOB OF IMITATING MANY BEETLE SPECIES.

LAST GASP ANT TIED BY SIGNATURE TYER PHIL IWANE

THE IDEA WAS TO MAKE THIS ANT APPEAR TO BE DROWNING. THE TMC 2488 WAS THE PERFECT HOOK. THE NEXT PART OF THE DESIGN WAS THAT IT LOOKED REALISTIC. I TIE THE LAST GASP ANT IN TWO COLORS, BLACK AND RUST. THE LAST GASP ANT WAS DESIGNED AS A DRY FLY SO IT WAS IMPORTANT THAT TOP PORTION OF THE FLY WOULD FLOAT ON TOP OF THE FILM OF THE WATER AND THAT THE ABDOMEN AND THE THORAX WOULD BE IN THE FILM. TO SUPPORT THIS PATTERN, I DECIDED TO TIE IT WITH A PARACHUTE WHICH APPEARS TO BE THE WING OF THE ANT AND THE POST MAKES IT VISIBLE TO THE FLY FISHER. WHEN I FISHED IT, MY LAST GASP ANT PERFORMED JUST AS IT HAD BEEN DESIGNED. MOST IMPORTANTLY IS THAT IT CAUGHT FISH IN GOOD NUMBERS WHICH IS THE GOAL OF ALL DESIGNED FLIES.

TL HOPPER TIED BY SIGNATURE TYER ZACHARY TOKACH

THE IDEA CAME ABOUT CREATING A HOPPER STYLE FLY THAT WAS UNIQUELY WEIRD! I WANTED THE PATTERN TO BE "NERVOUS ON THE SURFACE" HENCE THE UNORTHODOX REAR LEGS WHICH ARE NOT TYPICAL HOPPER LEGS BUT BUGGY! I WANTED THE PATTERN TO BE ABLE TO BE FISHED AMONGST BEETLES AND SPIDERS OR WHATEVER NON ESCAPING TREATS ARE ON YOUR WATER. AND WITH FOUR COLORS AND THREE SIZES TO CHOOSE FROM THERE'S A TL FOR WHATEVER TYPE OF WATER YOU'RE ON!

NAKED CHUBBY

WITH THE EVER-GROWING POPULARITY OF THIS FLY PATTERN, UMPQUA HAS DECIDED TO LEAN ON ITS EXPERIENCE WITHIN THE INDUSTRY AND PUT AN INNOVATIVE SPIN ON THIS CLASSIC. OUR GOAL IS TO GIVE ANGLERS ANOTHER OPTION TO FISH A CONFIDENCE PATTERN WHEN THE FISH HAVE ALREADY SEEN TOO MANY BIG FLUFFY WHITE WINGS FLOATING ABOVE THEM. THE NEW "NAKED CHUBBY" COMBINES A MORE SLENDER UNDERBODY PROFILE WITH SOME HOLOGRAPHIC FLASH TO STILL GRAB FISH'S ATTENTION, WHILE THE TONAL WING BLENDS GIVE ANGLERS A STEALTHIER APPROACH TO WARY FISH AND MORE CLOSELY RESEMBLE THE TRUE WING COLORS OF NATURAL INSECTS.

TIED BY SIGNATURE TYER
BEN BAXTER

WITH THIS FLY I WAS REALLY LOOKING TO GET A LOT OF WEIGHT PAIRED WITH A LITTLE MORE OF AN AGGRESSIVE PROFILE (TAPER) TO THE FLY. I WENT WITH A NATURAL COLOR APPROACH INITIALLY AND THEN ADDED THE COLORED RESIN. I ALSO WANTED TO GET SOME MOVEMENT IN THE FLY WITH THE LEGS (OR THE BEARD) WITH THE OSTRICH HERL. AFTER JIG HOOKS STARTED TO BECOME MORE POPULAR, ALONG WITH THE EURO NYMPHING SCENE, I DECIDED TO PUT THE PATTERN TO A JIG HOOK. I HAVE USED IT UNDER AN INDICATOR FOR NYMPHING DEEP RUNS. IT CAN BE USED AS A POINT FLY IN A LARGER SIZE OR A DROPPER FLY IN A SMALLER SIZE ON A STANDARD EURO NYMPHING RIG.

THE BLACK VELVET CAME ABOUT WHEN RILEY COTTER AND I WERE COMPETING TOGETHER AT ONE OF OUR NATIONAL CHAMPIONSHIPS. I HAD SOME PHEASANT TAILS THAT I DYED WITH A COLOR CALLED BLACK VELVET FOR A CERTAIN CHIRONOMID PATTERN AND WE PUT OUR HEADS TOGETHER FOR THIS JIG FLY BACK AROUND 2009. THIS FLY IS STILL ONE OF MY GO TO PATTERNS IN COMPETITIONS AND WHENEVER I'M FISHING.

TIED BY SIGNATURE TYER
FORREST DORSEY

THE BUCKSKIN JIG IS AN UPDATE TO FEATURES THE OF THE TRADITIONAL BUCKSKIN. THE BUCKSKIN JIG IS TIED ON AN UMPQUA X-SERIES 400BL JIG HOOK AND OFFERS A HEAVY SLOTTED TUNGSTEN BEAD, SLIM PROFILE AND A BIT OF FLASH IN THE THORAX TO TRICK EVEN THE PICKIEST TROUT. THE BUCKSKIN JIG FISHES WELL ANYWHERE THERE ARE FREE-LIVING CADDIS, AND CAN DOUBLES AS A MIDGE LARVA IN SMALLER SIZES. THE BUCKSKIN JIG CAN ALSO BE USED IN SUMMER AS AN EFFECTIVE DROPPER IN A DRY-DROPPER SETUP. I'VE FOUND THIS FLY TO BE VERY PRODUCTIVE ON EVERY TAILWATER I HAVE EVER FISHED, BUT IT EXCELS ON THE SOUTH PLATTE.

CDC CASED CADDIS JIG

TIED BY SIGNATURE TYER
FORREST DORSEY

THE CDC CASED CADDIS JIG IS A TWIST ON THE POPULAR CASED CADDIS THAT IMITATES BRACHYCENTRUS CADDIS LARVAE, WHICH ARE EASILY IDENTIFIED BY THEIR BROWN, RECTANGULAR, TAPERED CASES.

I TYPICALLY FISH THIS PATTERN ON LARGER TAILWATERS WITH HEAVIER NYMPHING RIGS BUT, IT FISHES WELL ON FREESTONES TOO. DON'T SLEEP ON THIS PATTERN AS A DROPPER IN A DRY-DROPPER APPLICATION, AS I'VE FOUND IT TO BE VERY SUCCESSFUL IN HIGH ELEVATION CREEKS SEARCHING FOR NATIVE BROOK TROUT.

THE CDC CASED JIG IS ABOUT AS BUGGY AS IT GETS. I MIGHT BE A SUCKER FOR ANYTHING TIED WITH CDC, BUT SO ARE THE FISH!

TIED BY SIGNATURE TYER
GARRISON DOCTOR

YOU MAY HAVE SEEN THIS MATERIAL ON SOME SEXY SALTWATER CRABS, BUT THIS MATERIAL IS GREAT IN FRESHWATER AS WELL! THIS UNIQUE MATERIAL USAGE ON MY FLEXY STONE CREATES A REALISTIC PROFILE WITH GREAT WING CASE DEFINITION, DIFFERENTIATING IT FROM CLASSIC CHENILLE WRAPPED STONEFLY PATTERNS. THE TRANSLUCENT QUALITY OF THE TUBING IMPARTS REALISM IN THE WATER, SHOWS THROUGH TO THE BEAD SEGMENTATION IN THE ABDOMEN AND THE LONG LEGS FOR MOVEMENT SEAL THE DEAL. THE FLY IS EXTREMELY DURABLE AND WILL FISH GREAT WHEREVER BIG STONEFLIES CRAWL!

WHEN THERE ARE TROUT TO BE CAUGHT SUBSURFACE, THE GINGER SNAP IS A GO TO. WITH A MIX OF YELLOW CDC AND UV ICE DUB IN THE COLLAR AND A SLIM SULPHUR ORANGE QUILL BODY, THIS FLY IS A NO BRAINER WHEN PMDS ARE POPPING OFF. I WANTED SOMETHING THAT WOULD WORK AROUND ALL THE RIVERS IN NORTHERN CALIFORNIA AND PMDS ARE A VERY COMMON BUG THAT CAN BE ABUNDANT IN THE AREA. TRIED AND TRUE, THIS JIGGED STYLE FLY WITH A TUNGSTEN BEAD WORKS FOR ANY STYLE OF NYMPHING YOU FANCY. LIVING IN THE ROCKY MOUNTAINS WE HAVE LOTS OF FREESTONE, CANYON STYLE STREAMS AND RIVERS THAT ARE FULL OF STONEFLIES. THE GOLDEN NUGGET IS A GREAT REPRESENTATION OF BOTH THE SALLY AND SMALLER GOLDEN STONEFLIES THAT CAN BE FISHED YEAR ROUND. WE ALSO HAVE A BLACK VERSION THAT REPRESENTS THE SMALL WINTER STONE THAT WE FIND OUT AND ABOUT ON MANY DRAINAGES. THIS FLY WAS DESIGNED FOR COMPETITIONS, SPECIFICALLY THE WFFC IN VAIL COLORADO BUT FISHES EQUALLY WELL UNDER AN INDICATOR OR AS A DROPPER ON BIGGER DRY FLIES. THIS PATTERN STANDS ON ITS OWN AS A PERDIGON STYLE STONEFLY, GETTING DEEP QUICK AND STAYING AT DEPTH NO MATTER HOW STRONG THE CURRENT.

THE SOFT HACKLE MERCURY PHEASANT TAIL IS A NIFTY LITTLE SOFT HACKLE THAT MIMICS EMERGING MAYFLIES DURING THE HEIGHT OF A HATCH. THE SOFT HACKLE (PARTRIDGE) AND THE FLUFFY PEACOCK HERL THORAX BREATHE LIFE WHILE THE SILVER-LINED GLASS BEAD ADDS A "DASH OF FLASH" THAT HELPS SEPARATE IT FROM THE CROWD. THE "MERCURY BEAD" MIMICS THE HIGHLY REFLECTIVE AREA OF TRAPPED GAS IN THE THORAX DURING EMERGENCE WHICH BECOMES A "TRIGGER" TO NEARBY FISH. THE SOFT HACKLE MERCURY PHEASANT TAIL CAN BE FISHED UNDERNEATH A STRIKE INDICATOR OR PRESENTED DOWN AND ACROSS WITH TRADITIONAL WET-FLY TACTICS. THE SOFT HACKLE MERCURY PHEASANT TAIL IS A NICE ADDITION TO THE MERCURY SERIES.

TIED BY SIGNATURE TYER
JOSH SMITHERMAN

THE IMMORTAL MAY WAS DESIGNED TO BE AN EXTREMELY DURABLE MAYFLY NYMPH. THE RUBBER TAIL AND LEGS ARE BASICALLY INDESTRUCTIBLE AND THE ABDOMEN IS PRETTY DANG CLOSE. USUALLY THE WIRE RIB IS THE FIRST THING TO GET WORN OUT ON THIS PATTERN, WHICH SHOULD SAY ENOUGH ABOUT THE DURABILITY. THE THORAX IS MADE OF CDC DUBBING TO GIVE EXTRA MOVEMENT AND THE BEAD IS TUNGSTEN TO HELP GET IT DOWN IN THE ZONE. WITH THE UPTURNED EYE ON THE TMC 226BL, THERE IS PLENTY OF HOOK GAP ON EVEN THE SMALLER SIZES. THIS IS A GREAT PATTERN FOR BRINGING FISH TO THE NET AND WHILE KEEPING THE FLY BOX FULL. IT'LL BE DIFFICULT TO FIND A LONGER LASTING MAYFLY PATTERN THAN THIS ONE.

PICKY EATER PERDIGON
TIED BY SIGNATURE TYER
ZACH VANDEHEY

AS AN AVID FLY FISHERMAN, I'VE SPENT COUNTLESS HOURS ON THE DESCHUTES RIVER IN CENTRAL OREGON. IT'S A CHALLENGING RIVER WITH STRONG FLOWS AND DEEP WATERS, BUT IT'S ALSO HOME TO A VARIETY OF NATURAL FOOD SOURCES THAT MAKE IT AN IDEAL SPOT FOR FLY FISHING. WHEN SELECTING FLIES FOR THIS RIVER, I'VE ALWAYS BEEN A FAN OF THE PERDIGON-STYLE FLIES FOR THEIR FAST SINKING ABILITY IN THE RIVER'S SWIFT CURRENTS. HOWEVER, MOST OF THE PATTERNS AVAILABLE ARE TIED WITH FLASHY MATERIALS THAT DON'T QUITE MATCH THE RIVER'S NATURAL OFFERINGS. THAT'S WHEN I DECIDED TO CREATE MY OWN FLY - THE PICKY EATER. THIS FLY FEATURES A SIMPLE BODY DESIGN THAT HELPS IT SINK QUICKLY AND A NATURAL CDC COLLAR THAT GIVES IT A REALISTIC, ORGANIC LOOK. TO MAKE IT EVEN MORE EFFECTIVE, I ADDED A HOT TAG IN A UNIQUE POSITION THAT MIMICS THE WING PAD OF A MAYFLY NYMPH.

I CHOSE THE UMPQUA XS 435 BENDBACK HOOK FOR THE FOUNDATION OF THE FLY. IT'S AN EXTREMELY STRONG FORGED HOOK WITH A UNIQUE SHAPE. NOT ONLY DOES THE BEND OF THE HOOK PERFECTLY EMULATE THE CURVATURE OF A MANTIS SHRIMP, BUT IT IS VERY WELL SUITED FOR PATTERNS DESIGNED TO RIDE IN THE HOOK POINT-UP POSITION. THIS IS CRITICAL WHEN FISHING AROUND HARD-BOTTOM HABITATS LIKE CORAL RUBBLE OR OYSTERS, WHERE GETTING HUNG UP IS A FREQUENT OCCURRENCE. A SHORT STRIP WITH A PREGNANT PAUSE IS TREMENDOUSLY EFFECTIVE. WHEN WADING THE FLATS, LOOK DOWN AT THE TINY HOLES THREE TO FOUR INCHES APART IN THE MUD. THE DISTANCE BETWEEN THE HOLES IS A GOOD GAUGE OF HOW LONG YOUR STRIPS SHOULD BE. A REAL SHRIMP TRYING TO TAKE COVER IS DASHING ONLY FROM ONE HOLE TO THE NEXT. YOUR FLY SHOULD EFFECTIVELY MIMIC THESE TINY, ABRUPT MOVEMENTS

MAYHEM MOLE CRAB

TIED BY SIGNATURE TYER
DREW CHICONE

WHEN IMITATING THESE BIZARRE BOTTOM DWELLERS, THERE ARE SEVERAL FACTORS YOU NEED TO TAKE INTO CONSIDERATION. MOLE CRABS, OR SAND FLEAS, AS THEY ARE COMMONLY CALLED, SPEND MOST OF THEIR TIME HIDDEN FROM PREDATORS, SLIGHTLY UNDER THE SAND. AS THE TIDE FALLS, THE TINY CRABS EMERGE INTO THE SURF AND ARE CARRIED IN THE WAVES TO THEIR NEXT RESTING SPOT. WITHIN A MATTER OF SECONDS, THE MOLE CRABS CAN BURY THEMSELVES BY BACKING INTO THE SOFT SAND TO HIDE. FOR THIS REASON, MY MAYHEM MOLE CRAB PATTERN HAS TWO MONOFILAMENT KEELS WEIGHTED HEAVILY WITH TUNGSTEN BEADS. THIS HELPS GET THE FLY DOWN TO THE SAND QUICKLY. THE ADDED WEIGHT ALSO AIDS IN CREATING A DISTURBANCE IN THE SAND WHEN THE FLY IS STRIPPED. THIS PUFF OF SAND IS CRUCIAL WHEN IMITATING THE CRAB'S DEFENSE MECHANISM OF BURYING ITSELF IN THE SAND.

PEYOTE PALOLO

TIED BY SIGNATURE TYER
DREW CHICONE

LIKE ALL MY PATTERNS, THE PEYOTE PALOLO WAS DESIGNED WITH MORE THAN JUST LOOKS IN MIND. THE MOST IMPORTANT ELEMENT TO ALL FLIES IS THE HOOK. I PREFER A SHORT SHANK HEAVY WIRE HOOK FOR TARPON FOR SEVERAL REASONS. FIRST, THE HOOK HAS TO BE HARDY ENOUGH TO HOLD UP TO THE ABUSE THAT THESE HEAVYWEIGHTS CAN DOLE OUT, BUT ALSO, THE SHORT SHANK REDUCES THE LEVERAGE THE FISH HAS FOR SHAKING THE HOOK FREE DURING BATTLE. I EXPERIMENTED WITH SYNTHETICS, RUBBER BANDS, AND ZONKER STRIPS, AND ALTHOUGH THEY HAD FANTASTIC MOVEMENT, THEY FOULED EASILY, AND I JUST WASN'T HAPPY WITH WHERE THE FLY RODE IN THE WATER COLUMN. ENSURING THAT THE FLY WOULD TRACK JUST UNDERNEATH THE SURFACE WAS PARAMOUNT TO ITS SUCCESS.

TIED BY SIGNATURE TYER
MICHAEL MCGOVNEY

SO I'VE SPENT A LOT OF TIME CHASING LARGE BONEFISH IN VERY SHALLOW WATER. SUPER SPOOKY AND VERY PICKY FISH. STANDARD BONEFISH FLIES JUST DON'T DO THE TRICK. THESE FISH HAVE PHD'S IN FLIES AND WILL LAUGH AT YOU WHILE STILL FEEDING A FOOT FROM YOUR FLY. STUDYING THE FLATS WE WERE ON I NOTICED LOTS OF CRABS SO NEXT STEP WAS TO TRY THE TYPICAL PERMIT CRAB BUT THE PROBLEM WITH THOSE WE FOUND OUT VERY QUICKLY IS THEY ARE LIKE THROWING ROCKS AT THEM. EVERY CAST THE FLY WOULD HIT THE WATER AND SPOOK EVERY FISH WITHIN 20 FEET OF IT. SO I WENT BACK TO THE VISE AND DUG THRU MATERIALS UNTIL I CAME UP WITH THE SIMPLE CRAB. IT LANDS SOFT, HOOK UP AND WHEN WET LOOKS JUST LIKE A REAL CRAB. THE MATERIAL EVEN HOLDS SOME AIR BUBBLES.

LEADER & TIPPET EURO COLLECTION

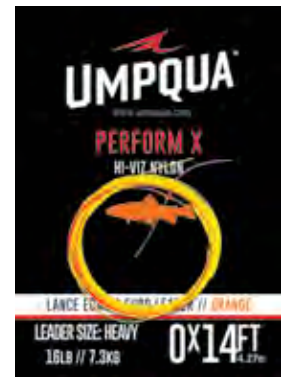

Umpqua presents its latest innovations tailored for Euro-nymphing enthusiasts, featuring a range of new leaders and accompanying accessories. These cutting-edge products are designed to elevate your fishing experience with improved strike detection and enhanced visibility. Upgrade your Euro-nymphing setup with these exceptional offerings.

PERFORM X EGAN'S EURO LEADER

\$8.24 EACH

Developed in collaboration with Lance Egan, this specialized leader optimizes modern euro-nymphing techniques, delivering superior performance and strike detection across various skill levels and fly sizes.

PERFORM X HI-VIZ BUTT MATERIAL

\$10.99 EACH

Construct custom euro leaders using this high-visibility nylon, available in a variety of colors and diameters. It provides excellent visibility, allowing for precise control in euro-nymphing setups.

PERFORM X SIGHTER TIPPET

\$8.24 EACH

Experience exceptional visibility with the bi or tri colored nylon, featuring extremely opaque sharp transitions. Perfect for tracking drifts in both high and low contrast lighting conditions, it enhances your ability to detect subtle strikes.

UMPQUA™ TIPPET RINGS STD 10-PACK

\$4.12 EACH

Simplify adjustments and replacements in your euro-nymphing setup with these small, smooth 2mm rings. Effortlessly connect varying tippet diameters, ensuring seamless transitions and ease of use.

THINK PINK

Introducing the revolutionary deceiver hd Pink Fluorocarbon tippet, designed to provide unmatched sub-surface invisibility. As the first color to vanish underwater, its pink hue ensures an ultra-stealthy presentation. The unique pink additive not only enhances knot performance by softening the material, but it also conceals any potential abrasions that may occur while fishing tight to structure where the big ones live.

NEW X-SERIES HOOKS

Umpqua's innovative collection X-Series hooks continues to bring to market hooks that are in sync with current trends in fly tying. The X-Series hooks fill a niche in the market and are purpose built. The new collection of five models of dry fly hook are no different. All produced with Japanese Steel.

XC110

A barbless, down eye hook with a wide gape, the XC110 is a perfect all-around hook for many different straight-bodied dry fly and nymph patterns.

\$5.23 25PACK

NEW TOOLS

TYING TOOLS AND KITS

NEW TMC EVO BOBBINS

The simplest and easiest operation available in a premium bobbin. After decades as the first and best ceramic bobbins on the market, Tiemco has applied improved designs and materials to make a great bobbin even better. The EVO has more rigid arms and upgraded hubs that reduce start-up inertia and enhance smooth rotation. These new features, combined with the highest grade ceramic tubes on the market result in less thread breakage.

The first and best ceramic bobbins on the market are now even better.

NEW 5-PIECE TYING TOOL KIT

All of your essential tying tools in one great travel case. Includes the following Dream Stream + tools: standard bobbin, bodkin, whip-finish tool, hackle plier, and 3.5" arrow point scissor. Everything you need including a carry case! Now all of our Dreamstream+ tool kits come in a new TAN color too.

THE TIME IS NOW FOR THE LOWER SNAKE

The Snake River basin in Idaho is the biggest, most pristine area of salmon and steelhead spawning habitat left in the continental United States. The lower Snake River dams are driving these once massive runs of salmon and steelhead rapidly toward extinction. It is time to take down these aging dams and recover wild salmon and steelhead in the Snake River basin.

Join Umpqua in signing on to remove the lower four dams on the Snake River.

ANTONIO'S ADULT MAYFLY ANTONIO RODRIGUES

“This pattern was developed with the need to be one step ahead of other competitors. As you know after a couple competition sessions everyone heard or saw the patterns you used and this one has been kept close to my vest for many many years.

My Adult uses a CDC split wing a straight hook and also the materials squirrel body, CDL tail, the perfect imitation for an adult mayfly.

It lands extremely soft on the water, floats very high, is easy to see, and fish take it like it is a natural time and time again.”

DJL DRAKE DANNY LANE

“The DJL Drake was conceived of when guiding the drake hatch on the lower Henry’s Fork in June 2017.

Nothing in my box matched the silhouette as closely as I wanted, so I began playing with deer hair and rubber legs.

A couple versions, a few updates, and 5 test seasons later, the DJL Drake as we know it is here.”

IWAN-E-DUN PHIL IWANE

"I wanted to create a mayfly pattern that was more realistic and caught more fish.

The important parts of an effective fly are the gape of the hook and a silhouette or imitation of the actual natural insect.

So I picked out the TMC 2488 hook which has a large gape, especially in smaller sizes, compared to the TMC 100 or 101 typically used for dry fly patterns.

Then I wanted to create an extended body, the standard body as you know is a dubbed abdomen, so I wanted to create an abdomen that was extended and looked like the natural.

I tried many different techniques but the one that worked the best was using monofilament for the body and micro-fibrets for the tails."

FOAM SPINNER CRAIG MATHEWS

“This spinner evolved a few years back on the Yellowstone River. The cutthroat trout there can be extremely tough to fool late in the season, and we needed a fly that would float well, present the proper silhouette, and would not twist fine tippets even 5 and 6x necessary for success.

Casting a large spinner on fine tippets is a recipe for tippet disaster so we decided to use hackle to imitate the wings on this fly. It minimizes twisting while maintaining the perfect spinner profile. And, a large hook always needs help floating, especially when the fly is sparse in design.

That’s why we decided on closed cell foam over the wings that gives additional floatation while allowing the perfect fly outline. A standard tail and dubbed body complete this deadly spinner pattern.”

HI-VIS FOAM BEETLE MIKE LAWSON

Many a day on the Henry's Fork and countless other rivers and streams have been saved by switching to a beetle when things get hot and tough.

This simple but effective imitation really gets it done. Try dropping an ant off the back to double your chances.

THUNDER GRASS HOPPER DOUG MCKNIGHT

"I came up with the Thundergrass hopper as a follow up fly to my successful Sweetgrass hopper that Umpqua released a number of years ago.

The end goal was to come up with another extremely realistic hopper pattern that floats well, but also sits lower and is slurp-able and easy to feed a wised up fish.

I borrowed the legs from Eric Paramore's brilliant Thunder Thighs hopper, along with elements of the Sweetgrass along with a few new ideas- like the cylindrical body which makes a wonderfully realistic profile.

The Thundergrass also does not have any rubber to rot off if you don't use it for a while- always a pet peeve of myself and other anglers.

The fly is also very scalable down to the tiniest of sizes and it easy to control the proportions and keep them the same throughout the different sizes.

We also slipped in a TMC wet fly hook that will hold up to heavier tippets and also make the fly sit a bit lower in the column than many all-foam hoppers."

GTI CADDIS LANCE EGAN

“The GTI Caddis is more imitative than most of my patterns. It represents a hydropsychidae larvae, commonly called “net builder” Caddis. Though a bit cheesy, GTI stands for Go-To imitation. This pattern truly is my go-to when wanting a weighted fly that closely imitates a favored large food form of Trout. One thing you’ll notice when comparing real Hydropsycha to my imitation is that the back on the GTI does not necessarily match any of the color combinations of the real insect. This isn’t by chance. I’ve spent a fair bit of time tying and trying Caddis larva imitations and I’ve come to learn a bit about what fish prefer in the process. For reasons unknown to me, Trout consistently prefer this fly when tied with a shell back color that contrasts the under body. I’ve tried many imitations that more closely represent the actual colors of Caddis larvae, but the fish do not take them as well. There is something magical about the contrasting colors. Try it, you’ll like it... Get a few GTI’s and fish them in your favorite Trout water.”

SLAPSHOT SCUD JON EASDON

“In my belief, one of the most overlooked fly patterns for trout is the scud.

Scuds are an ideal food source for fish and are readily available in most streams, rivers, and lakes. In years past there have not been a whole lot of different scud patterns available. This was the inspiration to create a pattern that even the pickiest fish would inhale. This pattern utilizes a tungsten bead and jig hook that rides with the hook point up. Its the perfect and balanced scud pattern for straight line nymphing and euro nymphing and is also equally effective in stillwater.

The Slap shot is available in a wide array of sizes and colors to cover all of the bases no matter where you are fishing it.”

- Signature Tyer Jon Easdon

CHUBBY DAMSEL LONDON MAYER

"I have a vivid memory of when I first witnessed, at age 14, a brown trout leap out of the water and snag an electric blue adult damsel out of the air. It was jaw-dropping! Ever since that experience, I have had the occasional awesome take here or there, but I could not find a damselfly that would float like a cork and appear natural.

Trout are more willing to take a large dry fly like a damsel when it surfs in and out of view with a big fish chop. Then one day it hit me—take some of the features of the best floating attractor dries ever, the Chubby. With a slim 2mm foam body, black synthetic legs like the adult. Instead of a second pair of legs, the bared flake silly legs represent the wet wings on the surface like stabilizers on a canoe.

The poly yarn tuft is a great sighter for tracking the fly. While the extended damsel braid tail completes the realistic look with the tip coated in resin to prevent fraying. The "Chubby Damsel" olive blue is now my mothership for dropping the Mini Leech Jig, Mini Leech Jig Radiant, and Mini Leech Jig Damsel."

AUTUMN SPLENDOR TIM HENG

Tim Heng's (Taylor Creek, Basalt, CO) Autumn Splendor has been a very good producer for many years.

The larger sizes are great for trout fishing from the boat or wading, while the smaller sizes are a delight for panfishing.

BUMPIN' BUNNY BRANDON ALEXANDER

“The Bumpin Bunny is a small baitfish imitation that drives gamefish crazy. The fly serves as a perfect beach pattern that holds its own on the flats and in saltwater creeks.

The Bunny strip tail provides plenty of action without manipulation from the angler when presented to laid up snook or speckled trout. It also provides a panicked action when stripped quickly around ambush points.

Tie this fly on anytime a fleeing baitfish pattern needs to be presented.”

DELUXE SPECIES DESTINATION FLY SELECTIONS

The perfect retail "entry level" selection. All Deluxe selections are packaged in attractive clam-pack containers with an Umpqua header card so that they can be displayed both on a counter and on slat wall.

DESTINATION FLY SELECTIONS

These selections were specifically called "Guide Selections" so that when your destination travel customers arrive at their exotic fishing location, it will be virtually impossible for the guides to mutter their favorite phrase, "those flies don't work here". Packaged in attractive clam-pack containers with an Umpqua header card so that they can be displayed both on a counter and on slat wall.

Flies for all seasons, flies for all reasons. Carefully chosen with value in mind. For holidays or any day, these are perfect impulse selections designed to offer you easy sales.

LEADER AND TIPPET

FIVE INNOVATIVE MATERIALS

Each material has been fine tuned to match the specific needs of anglers who venture out onto the water.

Regardless if you are delivering a seemingly impossible shot to a permit or rigging up your first dry dropper rig on your local creek, we have put the angler first. Our job is to provide confidence in your angling.

PRO BANDS

Our partnership with ProBands, which come on each spool of tippet, ensure that heat does not build up and degrade the material. The snug fit of our bands keeps tippet right where you left it and not dangling down in your way. These are the best bands on the market and were developed on the water by working guides.

GUIDE TRUSTED

Our network of tyers, guides, and family have been putting these materials through the paces. Tarpon in the keys, steelhead on the OP, dry fly eaters on the Henry's Fork, and pressured wintertime fish on the South Platte have all been brought to hand with these materials. The proof is in the pudding and your adventure awaits.

PERFORM X TROUT NYLON

HOLY GRAIL COMBINATION OF STRENGTH & SUPPLENESS

Perform X delivers the Holy Grail in tippet performance – brute strength and suppleness. The right suppleness allows a perfectly dead-drifted fly to entice the most wary trout, while a secret blend of nylon results in the strength to bring the fish to net. Exceptional knot strength and abrasion resistance round out this perfectly balanced material.

PERFORM X CONSTRUCTION

Core | Co-Polymer Nylon

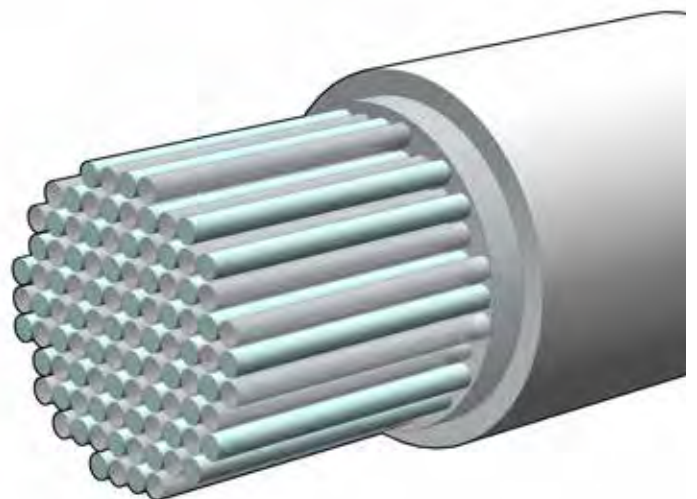

Perfect balance of strength and suppleness

Coating 1 | Hydrophobic Coat

water barrier – nylon should not be a sponge

Coating 2 | Continuous Coat

produces a smooth consistent, reliable material

Ideal for long, delicate presentations with small, technical flies. A dense, long butt and long taper ending with a long length of tippet results in ultra-smooth, stealthy, dead-drift for the flat water of spring creeks and stillwaters.

UMPQUA™ LEADER TAPERS

We have designed three tapered leaders to cover all of your trout-fishing needs. Choose the right Perform X leader for the right fly presentation:

Trout Taper (7.5', 9' & 10') A great combination of a strong taper paired with plenty of tippet length to achieve great drifts with most fly sizes and types. This is your go-to leader for most situations.

Power Taper (7.5' & 9') The strongest and fastest taper available. A quick transition from heavy butt to tippet results in a powerful turnover of everything from big terrestrials to multi-fly rigs (i.e. hopper/copper/dropper). New fly casters will also greatly benefit from this leader's strong turnover.

Finesse Taper (13') Ideal for long, delicate presentations with small, technical flies. A dense butt and long taper results in ultra-smooth, stealthy, dead-drift presentations in spring-creek conditions.

This is your go-to leader when stealth is critical. These Trout Leaders, in all lengths, feature exclusive taper designs to ensure a perfect blend of stealth, power and delicacy...with legendary Deceiver strength and stealth.

“When I flip the lid to my boat bag, at the very top are my spools of tippet and packs of leaders. Stacks of Perform X and Deceiver X in 0X-6X, with some 10lb-25lb Deceiver HD in there for the fun stuff. I never want to worry about my gear. I know all the pieces fit together and everything has a place and a purpose during my day. The confidence I have for my leaders and tippet has to be unwavering, it’s how I make my day.

Confidence comes with testing- when and how will it break? Will it turn flies over? Is it catching fish on crystal clear rivers? After countless days on the water one starts to build a familiarity with his/her equipment. Abrasion resistance, knot strength, low stretch and invisibility are all on my radar with my tippet. Having a great day with a product will give you all the confidence and peace of mind you’ll ever need.

Not all 5x is created equal.”

PHANTOMX ULTRA FLUOROCARBON

NEVER SEEN BEFORE, STRENGTH, SENSITIVITY & INVISIBILITY

Simply put, Umpqua's Phantom X is the strongest and most invisible fluorocarbon tippet on the market. And with very little stretch, Phantom X allows you to detect the most subtle takes. A unique chemical process of combining FC monomers into polymer chains results in abrasion resistance, sensitivity, density, invisibility and strength never seen before in FC tippet.

- Core | Ultra Low Stretch Fluoro** Increased sensitivity and strike detection
- Outer Core | Low Memory Fluoro** Suppleness for maximum presentation
- Coating 1 | Soft Coat** Increased knot strength and improved knot seating
- Coating 2 | Phantom Coat** Maximum invisibility with decreased light reflection
- Coating 3 | HD Coat** 25% more abrasion resistance over other materials

A leader designed specifically for Euro Nymphing. Built to fish in changing conditions and a variety of techniques from dry dropper to jigging streamers. It fishes well with lightly weighted nymphs or heavy bombs at long and short range. Tipped with our new Phantom X Fluorocarbon this leader is a deadly leader for this unique style of fishing.

Presentation matters. Many would argue that it is the most important aspect of catching tough fish. And, while we can't stop you from wading into prime holding water or epically botching your reach cast, we can help you match the right leader/tippet to the right fly and situation.

PACKS, BAGS & ORGANIZERS

When you enter the land of waterproof packs, you usually enter a land of great compromise. A few welded compartments with very few additional features, if any, and very difficult access (zippers that require training and conditioning to open and close). With our new line of ZS2 waterproof packs, we have focused on access and usability. By using different closures for different purposes (zippers and roll-tops where appropriate) we believe we have created a system that can be made to work for any flyfisher's needs.

TIEMCO™ HOOKS

“Just 5 flies tied on the real thing fish better than two dozen on imitations.”
-KEN SHIMAZAKI

Tiemco hooks were first made in 1984. That year was also during an American clamor to boycott Japanese products and buy American. Within a couple years the term “Japan bashing” was coined and Americans set upon Japanese cars. It was not an auspicious time to introduce Japanese hooks to the U.S. Undeterred, Umpqua’s founder, Dennis Black, one of America’s greatest commercial tiers, tested these new hooks, and with a simple handshake with Tiemco’s Toshi Shimoda, agreed to distribute them in the U.S. With that courageous decision, fly tying – and fly fishing – would be changed forever.

Tiemco’s hook designer, Ken Shimazaki, insisted on the most stringent quality control, using only the very best Japanese steel within tolerances measured in the 1/100 th of a millimeter. His designs were intended solely for fly tying and were the very first to be perfectly tempered, the first to offer chemically sharpened needle points and the first to introduce micro barbs. The first four models, TMC 100, 101, 200 and 300, were all of such a superior quality they ended the need for tiers to ever again have to inspect hooks for closed eyes or to tediously sharpen points before seating in the vise.

Tiemco quickly added the now familiar TMC 102Y, 5263, 3769 and 3761. These inspired hook designs were introduced to America in Umpqua’s 1985 catalog in a space that measured a mere 5 square inches—no explanation, no copy, just “Tiemco Hooks” and a small silhouette of each model.

It would take several years before American tiers would readily accept these Japanese imports. Nonetheless, American fly fishermen – and their fishing success – benefited quickly as Dennis Black started using Tiemco hooks in Umpqua’s fly production in Asia. Improvements in new fly design soon resulted as Dennis gave these first hooks to some of America’s best tiers and fly designers, introducing classic new patterns like Randall Kaufmann’s Stimulator, tied on the elegant TMC 200. With the initial manufacture of the first Tiemco hooks, fly tying, fly design, and fly fishing itself would all change...for the better.

Twenty-nine years later, Tiemco continues to be the standard against which all other fly tying hooks are compared and measured. Currently there are many claiming to compete with Tiemco, but Ken Shimazaki’s hook designs were so cutting edge that most simply copied Tiemco’s models, and some even plagiarized their model numbers. But as Ken would say, “Just 5 flies tied on the real thing (Tiemco) fish better than two dozen on imitations”.

SUPER POINT SERIES

SUPER POINT SERIES

In addition to our outstanding, standard hook points, we are proud to offer the innovative Super Point Hook Series. This Super Point Series features a hollowed curve point with triangulated edges that sharpen easily. The “slow-tapered” point lowers the resistance of penetration, resulting in accelerated hook sets and better holding ability, especially in barbless versions.

To fit the needs of your customers, Tiemco® SP Hooks are available in a variety of popular models, including saltwater, streamer, dry and nymph hooks.

PURE INNOVATION
THE ALL NEW X SERIES

X-SERIES HOOKS

COMPETITION/SPECIALTY

Fly fishing has evolved. Flies have become more specialized and so have the hooks they're tied on. Our new X-Series hooks represent the increasing styles of unique and specialized hooks customers need and demand. These models are hand-picked by our fly development team to assure we're leading the market with the most innovative and effective hooks and flies on the market.

X-Series Features

V-LOCK BEND – only available from Umpqua, the angular V shaped bend creates a “locking” angle after the hook penetrates past the barb, resulting in more landed fish.

Micro Barbs – the perfect balance of maximizing easy penetration and holding functionality. Combining micro-barbs with V-Lock design results in the best of both worlds

BN5X Finish – stands for “black nickel 5 times” meaning it provides extreme corrosion resistance along with an extremely smooth finish which improves hook penetration.

Forged Bend – compressing the steel wire at the bend (the location where most of the pressure/leverage is put on a hook) increases the density and strength of the steel resulting in a stronger hook

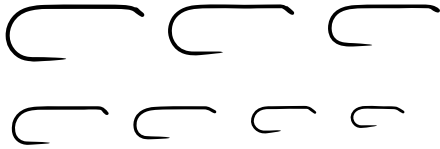

High Carbon Steel – because carbon enhances iron strength during the tempering process, the higher the carbon content, the stronger the hook and the sharper the point.

COMPETITION HOOKS

XC-COMPETITION HOOKS

With the Competition Series, Umpqua offers the models the best fly fishermen in the world use and trust. Designed in cooperation with individual and team world champions, these high carbon steel fly hooks have large gapes for superior hooking, black nickel finish for increased stealth, and barbless extra-long needle points to hold fish with minimal impact.

SALTWATER HOOKS

XS410 NI5X

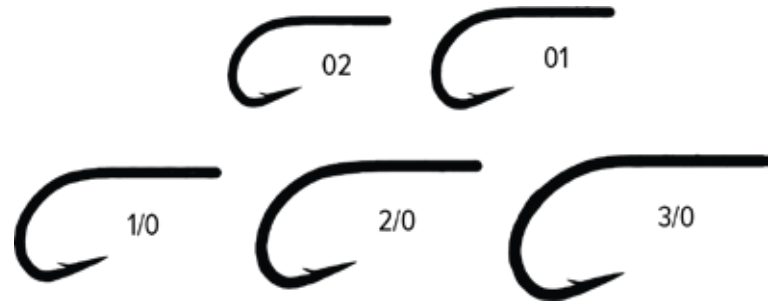

ALL PURPOSE SALTWATER

Straight eye, wide gap, variable length, X-Strong, forged bend, V-Lock bend, micro-barb, BN5X finish.

Simplify your salt, big-game and flats tying with this great all-around hook. With variable shank length and wire strength (optimized for size), this hook is perfect for flats flies in sizes 2-10 (Gotchas, etc.), 1/0-2 permit flies (crab patterns), and baitfish up to 4/0 (i.e. Deceivers)

XS415 BN5X

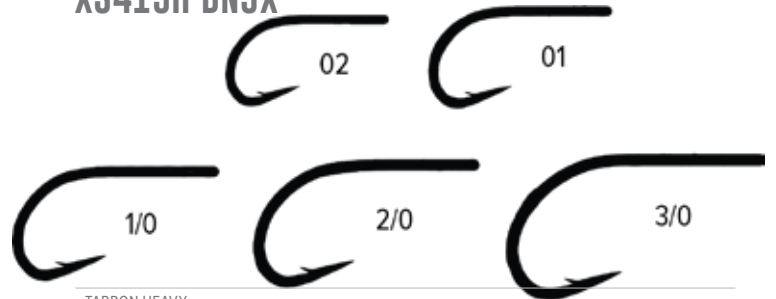

SALTWATER BACKCOUNTRY

Hook and hold the toughest of saltwater fish. While specifically designed for Tarpon, this is a great all-around saltwater hook (think Deceivers and Clousers) that consistently gets big fish to the net. A large gap, sticky point and special BN5X finish put this hook above the competition. Only from Umpqua, the BN5X black nickel finish is up to 5X more corrosion resistant than standard BN finishes.

Straight Eye, Wide Gape, Extra Strong, Needle Point, BN5X finish (super corrosion-resistant black nickel)

XS415H BN5X

TARPON HEAVY

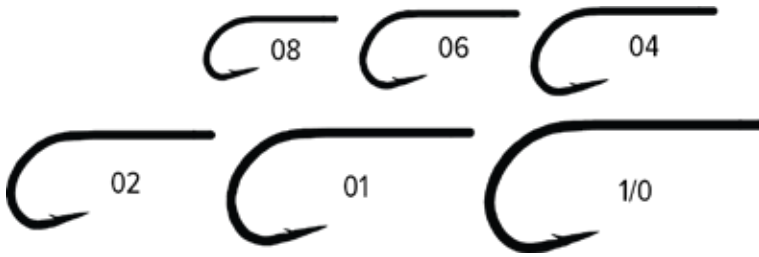

Straight eye, wide gap, X-heavy, forged bend, micro-barb, BN5X finish

A heavy-duty forged bend and extra-strong wire result in a hook you can trust when chasing big tarpon. A micro-barb, smooth BN5X finish and unique bend/point configuration result in easy penetration and reliable hold.

XS420 BN5X

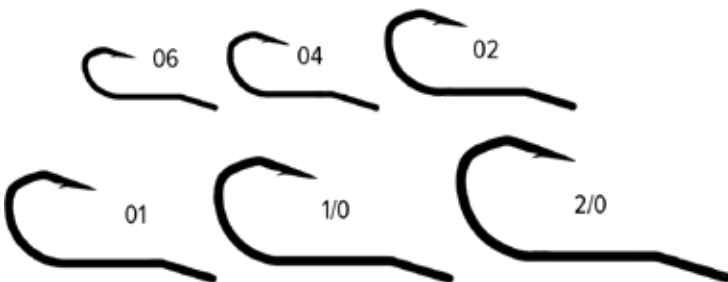

SALTWATER FLATS

A new standard for flats flies, the XS420 is the ideal hook to update and improve your version of any Gotcha, Charlie, Scampi, etc.. A unique bend holds fish like a vise and our proprietary BN5X finish (up to 5x more corrosion resistant than standard black nickel) sets this hook apart. Only from Umpqua, the BN5X black nickel finish is up to 5X more corrosion resistant than standard BN finishes.

Straight Eye, Standard Length, Extra Strong, Needle Point, BN5X finish (super corrosion-resistant black nickel)

XS435 BN5X BENDBACK

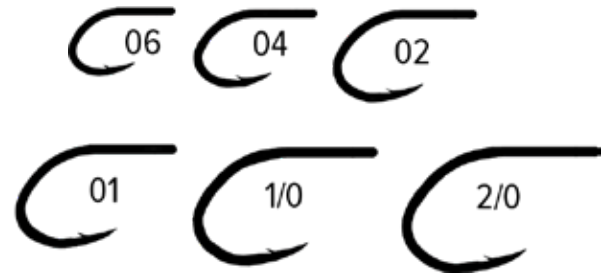

BENDBACK

Bendback, straight eye, strong, forged bend, micro-barb, V-Lock bend, BN5X

We believe the Bendback deserves a long overdue comeback! Baitfish and shrimp patterns tied on the XS435 are naturally weedless without the typical compromise in gap. The V-Lock bend results in hook holding never before available in this style.

XS506 JIG

60 DEGREE JIG

Strong, micro-barb, black nickel

A great all-purpose 60 degree jig hook ideal for larger freshwater fish (think streamers & carp flies) and saltwater bottom feeding fish (i.e. bonefish & redfish). The 60 degree jig results in a great up/down "jigging" motion that consistently triggers eats and greatly improves straight "tracking".

DREAM STREAM PLUS

Umpqua's Dream Stream™ PLUS tying scissors are designed with special care for the discerning fly tyer. The surgical grade Japanese stainless steel micro-serrated blades are shaped and hand set to cut smoothly and crisply through the whole length of the blades.

DREAM STREAM™ PLUS 6 INCH HD SCISSOR

SRP \$24.99 EA

Longer, heavier blades and oversized handles make these scissors ideal for cutting bigger, thicker materials (particularly synthetics). Micro-serrated blades allow for excellent material "grip" and cutting and surgical grade Japanese steel results in long-lasting sharpness. Save your fine-tipped scissors for the finish work and make your material prep easier with these heavy duty (HD) scissors.

BLUE 31200 \$13.74 EA

DREAM STREAM™ PLUS 4.75" HAIR SCISSORS

SRP \$17.99 EA

Ideal for natural materials. Long, heavy, micro-serrated blades grab and cut deer and elk hair easily and precisely. A great all-purpose workhorse for any tyer that spends a lot of time tying big, bushy bugs.

BLUE 31162 \$9.89 EA

DREAM STREAM™ PLUS 3.5" ARROW POINT SCISSORS

SRP \$15.99 EA

Shorter, thinner, micro-serrated blades make this a great precision scissor when tying smaller flies. Sharp, serrated blades grab and cut a wide variety of natural and synthetic materials.

BLUE 31166 \$8.79 EA

DREAM STREAM™ PLUS 4" RAZOR SCISSORS

SRP \$25.99 EA

Ultra thin, razor-sharp, micro-serrated blades made of J2-grade Japanese stainless steel allow you to cut through almost any fly-tying material with ease and accuracy. Tensioner allows for adjusting and tightening blades as desired.

BLUE 31160 \$14.29 EA

DREAM STREAM™ PLUS 4" ALL PURPOSE SCISSORS

SRP \$16.99 EA

Medium length, micro-serrated blades make these a great all-purpose scissor. Sharp, serrated blades grab and cut a wide variety of natural and synthetic materials for all-around use.

BLUE 31164 \$9.34 EA

DREAM STREAM™ PLUS 4.5" SQUIZZORS

SRP \$15.99 EA

Unique squeeze cutting-action allows for a very narrow and streamlined profile that can be held easily in the palm while tying. Short, thin, micro-serrated blades make this a great precision scissor when tying smaller flies. Sharp, serrated blades grab and cut a wide variety of natural and synthetic materials.

BLUE 31168 \$8.79 EA

TOOLS & KITS

DREAM STREAM™ PLUS HD BOBBIN

SRP \$19.99 EA

33124 \$10.99 EA

This heavy duty bobbin allows for even stronger tension control (by bending arms), silky thread-feed and smooth steel tube (minimize thread-breakage). Make sure you have a few of these with your favorite thread colors and Standard Bobbins handy.

DREAM STREAM™ PLUS STANDARD BOBBIN

SRP \$10.99 EA

33129 \$6.04 EA

A workhorse bobbin allows for excellent tension control (by bending arms), silky thread-feed and smooth steel tube (minimize thread-breakage). Make sure you have a few of these with your favorite thread colors handy.

DREAM STREAM™ PLUS DUBBING LOOP SPINNER

SRP \$13.99 EA

BLUE 33123 \$7.69 EA

An invaluable tool if you like to create long, large, complex and durable dubbed bodies. Simply create a thread loop, attach spinner to bottom, place dubbing mix on one side of thread (inside) and spin.

DREAM STREAM™ PLUS TREADER

SRP \$10.99 EA

BLUE 33120 \$6.04 EA

If you are regularly swapping out thread from your bobbin and are tired of hassling with threading and sucking your thread through the tube...this is your tool. The handle "bump" prevents this great tool from rolling off your desk.

DREAM STREAM™ PLUS TYING PICK

SRP \$9.99 EA

BLUE 33119 \$5.49EA

Great for picking out accidentally trapped material or heavily dubbed bodies for maximum "buggy'ness". The handle "bump" prevents this great tool from rolling off your desk.

DREAM STREAM™ PLUS DUBBING BRUSH

SRP \$10.99 EA

BLUE 33116 \$6.04 EA

Enhance the "buggy'ness" of any dubbed body with this unique tool. Great for brushing out palmered buggers or any fly after completion. The handle "bump" prevents this great tool from rolling off your desk.

DREAM STREAM™ PLUS BODKIN

SRP \$10.99 EA

BLUE 33118 \$6.04 EA

No tying bench is complete with out a few of these. Great for picking out a trapped hackle or applying head cement. The Handle "bump" prevents this great tool from rolling off your desk.

DREAM STREAM™ PLUS HALF HITCH TOOL

SRP \$8.99 EA

BLUE 33117 \$4.94 EA

Simple and effective tool for finishing the thread head of any fly or securing thread when changing colors or denier. The handle "bump" prevents this great tool from rolling off your desk.

DREAM STREAM™ PLUS DUB LOOP TWEEZER

SRP \$13.99 EA

BLUE 33141 \$7.69 EA

A versatile, large tweezer which is ideal for creating your own custom dubbing/composite loops and brushes. It can also be used for picking up and placing difficult-to-handle beads, hooks and eyes. The 3.75" tip has a ruler printed on it to help you determine and repeat the correct length every time.

DREAM STREAM™ PLUS WHIP FINISH TOOL

SRP \$13.99 EA

BLUE 33115 \$7.69 EA

Smooth rotation and finish along with an easy-to-grip handle make this the ideal tool to put the finishing touch on any fly.

TUNGSTEN JIG BOMBS

Jig Bombs are the solution to add more weight to your flies. The trend of oversizing beads to add more weight means that tyers lose shank length and are limited to what hooks they can use. The unique teardrop shape of the Bomb's means they are about 20% heavier than a standard slotted bead while keeping 15% more hook shank to create a body with. All of this means that flies maintain great proportions and drop into the zone and stay there.

The unique design of the Jig Bomb's will flip any hook and turn it into a Jig and of course it works beautifully on all jig hooks. These Bombs are built into our specialized collection of flats flies called Survive Entry, so the sky is the limit with creativity. Available in 2.5mm-5.0mm and a rainbow of colors.

Jig Bombs are the standard to which all other beads are measured against.

Radiant beads are extremely bright, anodized beads in colors historically not available to fly tiers. Electroplated anodizing results in vivid colors that are extremely scratch and chip resistant. All six colors are available in brass, tungsten and tungsten slotted beads (standard & faceted) make updating and improving existing patterns as simple as sliding on a Radiant Bead. Colors: Purple, Red, Orange, Brown, Olive & Light Pink.

FLY TYING MATERIALS

TUNGSTEN SLOTTED BEADS

These slotted tungsten beads are ideal on both the Umpqua Competition Series C400 Jig Hook and the Tiemco Jig Hooks. The slot on these beads allows them to pass easily over tight hook gaps while increasing the amount of weight per bead. Considering the increased use of small jig hooks for competition fishing, and the resulting growing interest in tying flies on these hooks, slotted tungsten is almost mandatory as the bead of choice.

TUNGSTEN SLOTTED BEADS 10 PACK

Ideal for use with competition c400 jig hook.
